Hear the difference

Blow away expectations with Christie® Vive Audio™.

Immerse your audiences in the full bandwidth of today's highly-detailed cinema audio formats and bring the ultimate cinema sound experience to your auditorium.

A complete solution purpose-built to bring premium cinema sound to any theatre, Christie Vive Audio combines the superior performance of planar ribbon drivers with our line array loudspeaker design and matches them with powerful Class D amplification.

The leader in cinema

As the preeminent supplier of cinema technologies, Christie leads the charge in helping exhibitors offer their customers the highest quality experience possible. We've pioneered the global conversion to digital cinema, innovated next-generation projection technologies including laser illumination and, with Christie Vive Audio, we are completing the experience by providing leading-edge, cinema-specific audiovisual solutions.

Setting the standard

We know what exhibitors expect from their audio system. Leveraging our long-standing position as a trusted supplier of cinema solutions, we've engineered each aspect of Christie Vive Audio to meet the needs of every theatre operator - from small boutique cinemas to premium large format theatres.

Foundations of cinema sound

Performance

Christie Vive Audio fills any auditorium with detailed, balanced and clear audio thanks to higher SPL and a more linear output across the frequency range.

Quality

Engineered with meticulous attention to every detail, Christie Vive Audio provides optimal performance and long lasting, reliable operation.

Design

Featuring low profile designs, a low reflection finish and multiple mounting options, Christie Vive Audio integrates stealthily into any auditorium for a seamless, clean and unobtrusive appearance.

The technology **trifecta**

What makes Christie® Vive Audio™ a superior performing cinema sound solution compared to traditional compression driver audio systems? We've developed the innovative combination of ribbon drivers, line array speaker design and Class D amplification.

Ribbon driver technology

Extremely low in mass, ribbon drivers react instantaneously to audio signals providing greatly enhanced clarity, dramatically reduced distortion and ultra-fast transient response, eliminating the effects of high-frequency breakup and power compression. This makes ribbon drivers the ideal technology for cinema applications. Speech, effects, music and alternative content sound more natural and lifelike for an enhanced listening experience that audiences notice.

Line array loudspeakers

Make every seat in the house the best seat. Line array loudspeakers are renowned for their ability to produce superior coverage and directionality meaning your customers benefit from impeccably detailed audio no matter where they sit in the auditorium.

Typical listening area comparison

Class D amplification

The Christie Vive Audio CDA Series of cinema amplifiers perfectly complement the high performance features of our ribbon driver loudspeaker systems. Featuring high power output and efficiency with very low heat output, fast transient response and stability, our amplifiers help provide dynamic and detailed sound.

CDA7.5

Mounting accessories

Christie Vive Audio offers a wide range of wall and ceiling mount brackets as well as rigging kits when loudspeakers need to be flown.

Why choose Christie

Technology leadership

By combining advanced ribbon driver technology, superior line array designs and state-of-the-art Class D amplifiers, we've brought the reliability, trust and quality that are synonymous with the our name to Christie Vive Audio. Benefit from the ease-of-use of our purpose-built cinema audio products and enthrall your audiences with high dynamic range and high resolution audio.

People helping people

Christie's extensive network of certified partners means you always have timely and personalized support. We work with you on the planning, procurement logistics, pre-staging, integration and implementation of a rollout - providing technical service installations, monitoring and maintenance. With local support in more than 40 North American cities, and global support in 35 countries, we are only a phone call or an email away.

We share your passion

Christie shares your passion for delivering the most enhanced, exciting and flawless cinematic experiences possible. We are committed to developing products and solutions that respond to today's cinema needs and provide future-proofed investments for long-term strategies.

Warranty

All Christie Vive Audio components have been rigorously tested to ensure they achieve the highest levels of performance, reliability and operation possible. For additional peace of mind, all Christie Vive Audio loudspeakers and subwoofers are covered by a 5-year limited warranty. All amplifiers come with a 3-year limited warranty.
